

Lumicrest High CRI UltraBright LED self adhesive strip is perfect for cove lighting, hospitality, retail displays, jewellery cabinets and shelving, museum display cases, and any location where space is at a premium and cool operation is important.

It can be cut every 6 LEDs (5 cm) or run as long as 16.4 feet (5 metres) in a single strip. 2700K, 3000K and 4000K models come in high CRI (90+) for the truest colour rendition available in LED flexible strip lighting.

Available in 2700K warm white, 3000K clean white, 4000K natural white, and 6000K cool white.

Features and Benefits:

- 4,875 lumens for 5 metre strip in 2700K High CRI
- Shatter and vibration proof - no filament
- 3M self-adhesive backing allows easy application to many surfaces. Curved surfaces work too.
- cUL compliant power supply/drivers available
- Emits no UV or IR rays
- Contains no mercury
- Low profile, unobtrusive
- Perfect for cove lighting, jewellery display cases, retail displays, museum cabinets and more
- Low heat emission - will not damage sensitive items
